The end walls fold flush with the floor. Seven units fold into 8ft6in. This is one of 20 patent designs exclusive to CSA licensees.

The 20ft Type (4) has a flat panelled end wall which folds directly on top of the base. When folded it can be used as a 20ft platform flat. The base includes four full width cross floor lashing recesses which will support chocking blocks, lashing chains, straps etc. Recesses are open to the ground for self cleaning. The end wall can be removable for vehicle loading. The floor surface is virtually continuous through recess zones.
