ShelterPAK®

**A unique answer to
an urgent need**

USE IDLE CONTAINER ASSETS AS A BASIS FOR SAFE & SECURE INSULATED SHELTERS.

Sea Box, Inc. engineers embarked upon the development of a completely new approach to the rapid lining of containers, using a number of desirable solution objectives.

This developed into a product specification that would result in a multi-purpose shelter solution based on the basic premise that ISO containers could be used as habitable shelters.

ShelterPAK® was created to transform a basic freight container into a useable, insulated space, at low cost, and with minimum technical support.

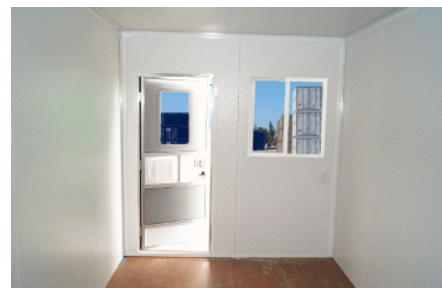

**ALL ShelterPAK® SYSTEMS ARE DESIGNED TO
FIT IN ALL STANDARD 20' ISO CARGO
CONTAINERS**

— STANDARD FEATURES —

- < Pre-Configured lightweight "kit"
- < Insulation value of R12+
- < Rapidly installed using unskilled labor
- < Remove kit & store for future deployments
- < Easily handled and transported
- < Low cost
- < Minimum, or no modifications to container
- < Pre-finished metal skin
- < Heaviest panel weighs under 35 lbs.
- < Pre-fitted screened exterior door
- < Window
- < Utility panel has electric entryway and duplex outlet on interior

— OPTIONAL FEATURES —

- < Extra utilities; increased electric capacity, A/C ventilation, telephone, furniture, etc.
- < ISO Container
- < Kit design available for 40' Container (SB3354)

PART # SB3352
